Benefits

We make you look good

Anytime/Anywhere

Take or create lessons anytime/anywhere even with no internet connection.

Web and Mobile app combo

Create lessons using the web app or create lessons with the mobile app and quickly share those lessons with your entire team.

Extremely easy

No installation, manuals or training needed. Quick deployment. Start using it immediately.

Team based learning

Create your own learning team or join an existing team. Belong to more than one team.

100% mobile architecture

Built as a 100% mobile solution from the ground up and all lessons optimized for mobile learning.

Multilanguage

Available in English, Spanish, Portuguese, French, Russian and Chinese.

Track performance

Trainers, teachers, leaders can track performance

Making HR look good

Get a seat at the table by enabling teaching and learning across your entire organization. Finally, teaching and learning that's painless and that everyone embraces.

Enterprise solution

Easily manage teams with thousands of learners. Create knowledge libraries for your entire company. Drive the culture of your organization!

How it works

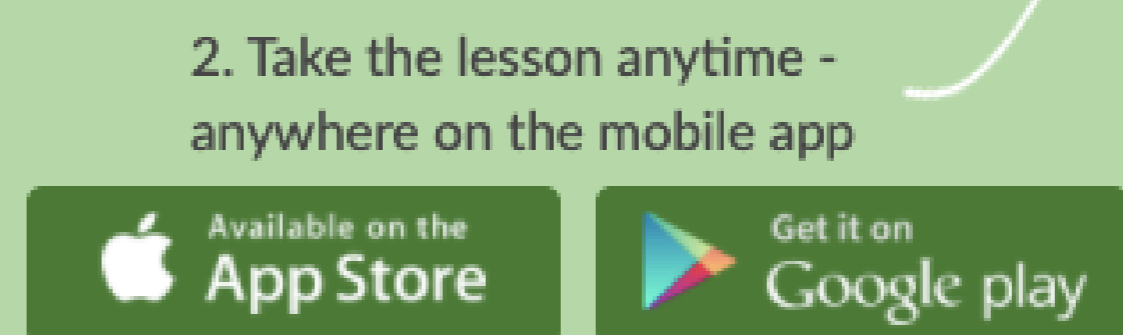

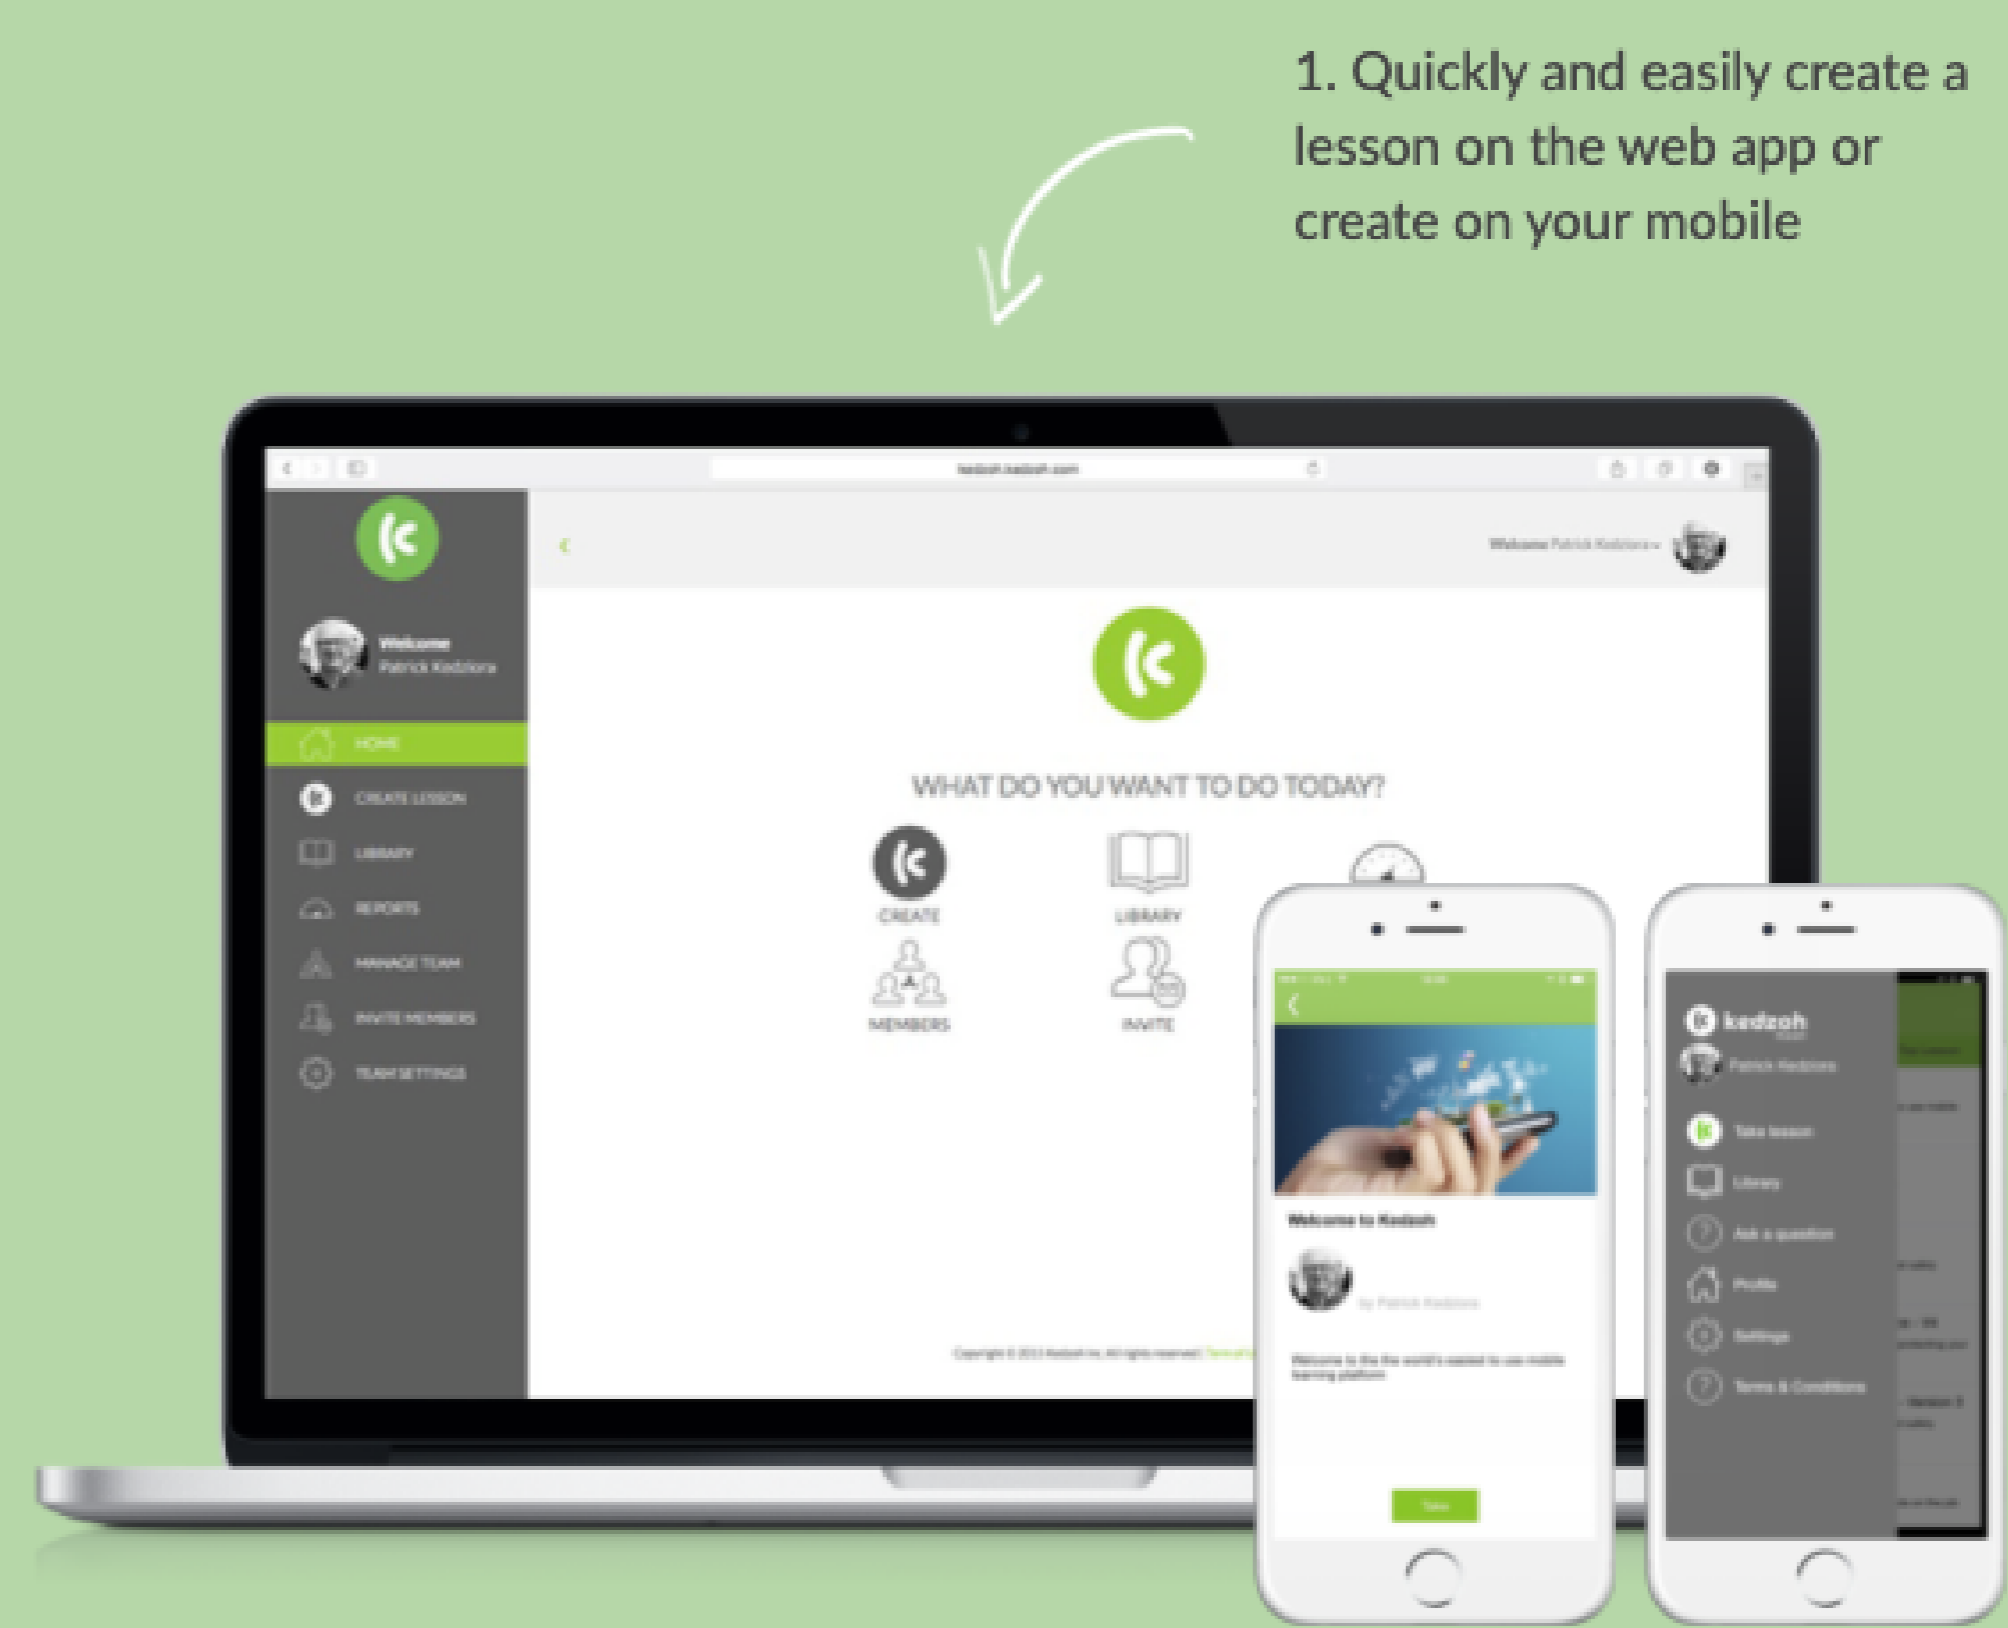

As easy as 1-2

1. Create

- No manual required
- No training needed
- Nothing to install

2. Share

- Team members receive a notification on their phone that they have a new lesson.
- Team members simply download the lesson, and
- Take the lesson even with NO internet access!

Take a tour

What users are saying

"A brilliant idea for mobile device-based enterprise-wide training and dissemination of information. Kedzoh is the right idea at the right time."

Michael K.
Chief Counsel
Fortune 30 company

"I have been using Kedzoh for over a year and it has shown amazing results. Kedzoh makes creating and sharing lessons easy both at my desk or on the go using my phone. Clients love the admin panel. Plus, Patrick and his team have been a pleasure to work with. I would highly recommend Kedzoh to anyone who wants to adopt Mobile Learning quickly and cost effectively."

Jon Synott
Head of Training
TTH - A major health software company
